

DANSE MACABRE

✱ Whenever a character rolls on the Grim Reaper's chart, he must subtract one from the result (to a minimum of 1).

If a character is on the Crown of Command and no other characters are present, he must send the Grim Reaper to visit any character in any Region.

If a character is on the Crown of Command and there is another character present, at the beginning of his turn he must attack the other character instead of sending the Grim Reaper to visit another character.
