

RACE TO THE CROWN

- * The first character to reach the Crown of Command wins the game!

WINNER TAKES ALL

- * Instead of winning the game by reaching the Crown of Command, the first character to kill the Lord of Darkness wins the game!

CHALLENGE FOR THE CROWN

When a character reaches the Crown of Command, he immediately moves to the Plain of Peril on the Dragon Tower board.

Once a character reaches the Crown of Command on the Dragon Tower board, he must confront the Dragon King.

★ If a character removes the Dragon King's last life, he wins the game!

CONFRONT THE DRAGON KING

A character on the Crown of Command must choose whether to attack the Dragon King using Strength or Craft. Each time he defeats the Dragon King he must remove one of his lives and immediately attack him again. If he is defeated, in addition to losing 1 life, his turn ends and he suffers the Dragon Rage of the Dragon King.

If a character removes the Dragon King's last life, he wins the game! If another character has already removed some of the Dragon King's lives, then a character only needs to remove the Dragon King's remaining lives to win the game.

★ If there are no characters on the Crown of Command, the Dragon King heals all of his lives.
